

Brett Yates

Having built multiple unique products on the web, from idea to customers, I've worn a wide variety of hats. I'm a product manager, UI / UX designer, a full stack developer, and a systems administrator. My passion is building great products. Learn more at brettyates.com.

EXPERIENCE

Freelance Consultant — Lead Engineer @ Red Foundry

2006 - PRESENT

As a freelance consultant, I work with companies to identify simple yet highly functional software solutions to business problems. Visit my website at brettyates.com to see a list of recent projects. Since 2019, I have been in a contract position as Lead Software Engineer at Red Foundry.

Vail Systems — Senior Product Manager

JUNE 2017 - NOVEMBER 2017

At Vail Systems, I was brought in to help complete the launch of a new API product. I led a team of developers building the backend management interface for the product as well as a marketing site. I also helped develop the go-to-market strategy for the product.

Babylon Technology — Product Manager, Software Engineer

NOVEMBER 2012 - JUNE 2017

Among other projects, I played a major role in the design and development of the systems processing millions in ticket sales for the BMW Championship, a major golf tournament on the PGA tour.

RentMonitor.com — Founder, CTO

MAY 2010 - DECEMBER 2016

I built a product and company from zero to processing over \$2 million per month in rent payments. In building the software, it was my responsibility to maintain the security of sensitive user information, including bank account, credit card, and credit check data.

EDUCATION

Texas Christian University — BA in MIS

I received a BA in Management Information Systems from TCU in Fort Worth, TX.

SKILLS

PHP, Laravel

MySQL / MariaDB

Javascript, jQuery, Vue.js

HTML5, CSS3, Sass

UI / UX Design

React Native

Server Administration

Wordpress

TECHSTARS

I was accepted into the Techstars program, the top business accelerator in the world with a 1% acceptance rate.
